I am a Protocol Test Engineer with an ISTQB certificate, characterized by independence, self-learning, and a strong can-do attitude. I take initiative in problem-solving and continuously expand my skills to deliver high-quality results. In my free time, I challenge myself by training for my first marathon, embracing persistence and discipline in all aspects of life.

Experience

Samsung Electronics Poland - Test Engineer

05.2023 – present

- Manual testing of LTE/5G connectivity in Warsaw and during frequent trips across Europe
- Testing Wi-Fi and Bluetooth connections with routers and peripheral devices
- Creating detailed bug reports using JIRA and collaborating with teammates via Confluence
- Tracking test results and progress using qTest
- Using Linux daily for testing in a terminal-based environment
- Writing batch scripts to automate mobile device setup before testing
- Developing a flashing/setting up tool for mobile devices in Java, later re-implemented in Python – a side project I'm proud of, saving colleagues significant time on daily tasks

Lionbridge Poland - Manual Tester

08.2022 – 04.2023

- Precisely following test cases and procedures
- Creating bug reports in a clear and concise manner in Azure DevOps
- Using extensively Query feature (SQL like) in Azure DevOps
- Providing feedback to game developers with quality improvement suggestions

Kraty Mostostal Kraków - Trade advisor

11.2019 – 08.2022

- Develop and maintain professional working relationships with customers
- Investigating and resolving any incoming enquiries
